

Package ‘lungExpression’

April 4, 2014

Version 0.0.16

Date 2009-07-22

Title ExpressionSets for Parmigiani et al., 2004 Clinical Cancer Research paper

Author Robert Scharpf <rscharpf@jhsp.h.edu>, Simens Zhong <zhong@mts.jhu.edu>, Giovanni Parmigiani <gp@jhu.edu>

Maintainer Robert Scharpf <rscharpf@jhsp.h.edu>

Depends R (>= 2.4.0), Biobase (>= 2.5.5)

Suggests

Description Data from three large lung cancer studies provided as ExpressionSets

LazyLoad yes

Collate

biocViews ExperimentData, Cancer, Lung

License GPL (>= 2)

R topics documented:

harvard	2
michigan	2
stanford	3

Index	4
--------------	----------

harvard

A Harvard study on lung cancer gene expression

Description

A Harvard study on lung cancer gene expression. Data is represented as an ExpressionSet.

Usage

```
data(harvard)
```

Details

Annotation for the phenoData will be updated.

References

Examples

```
data(harvard)
```

michigan

A Michigan study on lung cancer gene expression

Description

A Michigan study on lung cancer gene expression. Data is represented as an ExpressionSet.

Usage

```
data(michigan)
```

Details

Annotation for the phenoData will be updated.

Examples

```
data(michigan)
```

```
stanford
```

Public lung cancer data from the Stanford study

Description

Public lung cancer data from the Stanford study represented as an ExpressionSet

Usage

```
data(stanford)
```

Details

Annotation for the phenoData will be updated.
